RAVENNA2011 >

WASTE, WATER, ENERGY
Dealing with the environment

<p>What is “Ravenna 2011”?</p>	<p>It is an environment festival, three days of information and training meetings dedicated to technical-economic issues in the fields of waste, water and energy management.</p>		
<p>Objectives</p>	<ul style="list-style-type: none"> - Reconsidering strategies and responsibilities - The planning of new innovative, efficient and economic solutions - Riorganizing through fair and transparent systems - A new start through sustainable actions, investments and businesses 		
<p>Strenghts of the event:</p>	<ul style="list-style-type: none"> - Original format having an elevated technical-scientific level, set within a pedestrian historical town centre; - Effective development of the event ‘from the bottom up’ with the involvement of all the actors concerned (institutions, category associations, business enterprises, etc.) through the organization of Labelab, an independent network of professionals operating at national level; - Event which is always ‘active’ thanks to the pre and post event communication activities (active organization all year round) <p>A review of the previous editions is always available at the following websites www.ravenna2008.it , www.ravenna2009.it , www.ravenna2010.it</p>		
<p>Philisophy behind the event</p>	<p>Ravenna2011 maintains its OPEN character, already experimented in the past editions. All the events will be free of charge, except for the training courses (or LabMeetings). Contributions from partners/sponsors, in terms of economic resources and operational support (communication through one’s own canal, disposability of meeting halls, personel etc) is therefore fundamental for the success of the event at national level.</p>		
<p>Typology of events</p>	<p>When</p> <p>In the course of the three days</p> <p>In the course of the three days</p> <p>Wed 28, Thur 29 September 2011</p> <p>In the course of the three days</p>	<p>Event</p> <p>> Conferences</p> <p>> Workshops</p> <p>> LabMeetings</p> <p>> Cultural Events</p>	<p>Typology</p> <p>They represent the main activity, through the contribution from the world of economic sciences, corporations, culture, technology.</p> <p>In-depth meetings developed in collaboration with the main external networks (category organizations, institutions and corporations)</p> <p>Training and in-depth investigations through courses with a limited number pf participants.</p> <p>Research, knowledge, innovation, art and culture, considered as the ideal ground for establishing a new way of thinking, acting and communicating.</p>
